OBJECTIVES AND INVESTMENT POLICY

Objective:

- The Fund aims to achieve a return, over a five-year rolling period and after all fees and expenses, consisting primarily of capital growth (and potentially a low level of income) which exceeds that of a benchmark comprised of the FTSE All Share TR (7.0%), NSCX ex Inv Trusts TR (1.0%), Russell 1000 TR (13.25%), Russell 2500 TR (4.75%), FTSE World Europe ex UK TR (7.5%), FTSE Japan TR (3.5%), FTSE World Asia Pacific ex Japan TR (3.0%), ICE BofA UK Gilt TR (11.0%), ICE BofA Sterling Corporate Bond TR (6.25%), ICE BofA Global Broad Market TR (12.75%) and ICE BofA Global Broad Market (GBP Hedged) TR (20.0%), SONIA GBP (7.5%), ICE 1-5 Years Sterling Non-Gilt Index (2.5%).

Policy:

- It is expected that at least 51% of the fund's exposures will be to cash, cash equivalents and fixed income investments. The balance of the fund's exposure will be to equities. Investments will not be confined to any particular sector but will be diversified across global markets with broad exposure to equities and bonds.
- At least 70% of exposure will be achieved through investment in collective investment schemes (including exchange traded funds and other schemes managed and operated by the ACD or its associates). The remainder of the fund may be invested directly in transferable securities, money market instruments, warrants, cash, near cash and deposits as detailed in the Prospectus.
- Derivatives may be used for both investment purposes and for efficient portfolio management, although such use is not expected to increase the risk profile of the fund.

Other information:

- The performance of the Fund will be measured against a composite benchmark which is rebalanced monthly for target return purposes based on the FTSE All Share TR (7.0%), NSCX ex Inv Trusts TR (1.0%), Russell 1000 TR (13.25%), Russell 2500 TR (4.75%), FTSE World Europe ex UK TR (7.5%), FTSE Japan TR (3.5%), FTSE World Asia Pacific ex Japan TR (3.0%), ICE BofA UK Gilt TR (11.0%), ICE BofA Sterling Corporate Bond TR (6.25%), ICE BofA Global Broad Market TR (12.75%) and ICE BofA Global Broad Market (GBP Hedged) TR (20.0%), SONIA GBP (7.5%), ICE 1-5 Years Sterling Non-Gilt Index (2.5%).
- The Fund has discretion to invest in a range of investments as described and is not constrained by a benchmark.
- Any income from your investments is added to the value of your shares.
- Investors' requests to buy, sell or switch shares will be carried out at midday on each working day (which excludes UK public holidays). A request received after midday will be dealt with on the next working day.
- Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within five to ten years and should be regarded as a long-term investment.
- Upon the sale of your shares, especially in the short-term, you may receive less than the original amount you invested.
- There can be no guarantee that the objective of the Fund will be achieved.

- this indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- the risk category shown is not guaranteed to remain unchanged and may shift over time.
- the risk and reward indicator table demonstrates where a Fund ranks in terms of its potential risk and return. The higher the rank the greater the potential reward but the greater the risk of losing money. The lowest category does not mean 'risk free'.
- the Fund appears as a "4" on the scale. This is because the Fund invests in assets that typically carry medium risk and offer medium rewards compared with other categories of assets.

The indicator does not take account of the following risks of investing in the Fund:

Currency Risk: the fund can be exposed to different currencies therefore changes in exchange rates may decrease the value of your investment.

Financial Risk: there is a risk that a bank or building society could face financial problems, leading to the loss of some or all of the money on deposit.

Third Parties Risks: there is a risk that the third parties that the Fund enters into investment contracts with will fail to meet their obligations and the Fund may suffer a loss.

Infectious viruses: these may pose significant threats to human health and may be highly disruptive to global economies and markets. The economic and market disruptions caused by infectious viruses could impact the value of your investment and any distributions paid.
