

# Omnis Global Emerging Markets Equity Opportunities Fund

30 January 2026

## Investment objective

The Fund aims to achieve a return consisting of both income and capital growth which, after all fees and expenses, exceeds the MSCI Emerging Markets TR Index over a five-year rolling period.

## Investment policy

The Fund intends to invest at least 80% in the equity securities of Emerging Markets companies defined as those which are domiciled, incorporated or have a significant exposure to Emerging Markets. The fund will adopt a flexible approach to investment, seeking to invest in companies that are undervalued relative to their economic potential. Exposure to small and medium size companies will be greater than 50% of the fund. Small and medium sized companies are defined as those with a market cap of \$10 billion or less at the time of the Fund's investment.

Companies whose capitalisation no longer meets this definition after investment will continue to be considered small and medium market capitalisation companies.

The Fund may also invest in other transferable securities (for example, equity securities of other international companies), units in collective investment schemes (including schemes managed and operated by the ACD or its associates), money market instruments, warrants, cash and near cash deposits as detailed in the Prospectus.

It is envisaged that the investment portfolio of the Fund will be concentrated, typically comprising between 40 and 80 holdings.

Derivatives may be used for the purposes of hedging and efficient portfolio management.

## About Omnis Investments

Omnis Investments Limited is wholly owned by Openwork Holdings Limited, bringing established specialist providers together to create a tailored investment solution. It is focused on delivering maximum returns to investors for well-defined levels of risk via a series of funds.
