

Omnis Short-Dated Bond Fund

A Income Class - 28 November 2025

Investment objective

The Fund aims to achieve an annualised return consisting of both income and capital above the ICE BofA 1-5 Year Sterling Non-Gilt Index by 1%, before all fees and expenses, over a five-year rolling period. There is no guarantee that this will be achieved over this, or any, timeframe and capital is at risk.

Investment policy

The fund intends to invest either directly, or indirectly through collective investment schemes (up to a maximum of 10%), at least 80% in bonds (including index-linked bonds) with shorter maturities (less than 5 years) issued by governments, government agencies and companies worldwide (including emerging markets). The fund will invest in bonds issued either in sterling, or in another currency which will be hedged back into sterling. The Fund may invest 60% in subinvestment grade bonds (considered to be Standard & Poor's credit rating of below BBB or equivalent).

The Fund may also invest in transferable securities, money market instruments, warrants, cash, near cash and deposits as detailed in the Prospectus.

Exposure to collective investment schemes may include schemes managed and operated by the ACD or its associates.

Derivatives may be used both for investment purposes and for efficient portfolio management.
