

Omnis Strategic Bond Fund

27 February 2026

Investment objective

The Fund aims to achieve a return consisting primarily of income and some capital growth which exceeds that of the ICE BofA Global Broad Market TR Index (GBP Hedged), after all fees and expenses, over a five-year rolling period.

Investment policy

The Fund will obtain global exposure by investing at least 70% in a broad range of Sterling-denominated (or hedged back to Sterling) debt instruments, which may include developed and emerging market government bonds, inflation linked bonds, investment grade and high yield corporate bonds. The Fund may also obtain exposure to transferable securities, money market instruments, collective investment schemes (including exchange traded funds and other schemes managed and operated by the ACD or its associates) cash, near cash and deposits as detailed in the Prospectus.

Derivatives may be used both for investment purposes and for efficient portfolio management.
