

Omnis US Equity Leaders Fund

A Income Class - 29 August 2025

Investment objective

The Fund aims to achieve a return consisting of both income and capital growth, which, after all fees and expenses, exceeds that of the Russell 1000 TR Index over a five-year rolling period.

Investment policy

The sub-fund intends to invest at least 80% in the equity securities of US companies defined as those which are domiciled, incorporated or have a significant exposure to the US. Exposure to established larger companies will be greater than 50% of the fund. Large companies are defined as those with a market cap of \$10 billion or more at the time of the Fund's investment. Companies whose capitalisation no longer meets this definition after investment will continue to be considered large capitalisation companies.

The Fund may also invest in other transferable securities (for example, equity securities of other international companies), units in collective investment schemes (including schemes managed and operated by the ACD or its associates), money market instruments, warrants, cash and near cash deposits as detailed in the Prospectus.

It is envisaged that the investment portfolio of the Fund will be concentrated, typically comprising between 40 and 75 holdings.

Derivatives may be used for the purposes of hedging and efficient portfolio management.

About Omnis Investments

Omnis Investments Limited is wholly owned by Openwork Holdings Limited, bringing established specialist providers together to create a tailored investment solution. It is focused on delivering maximum returns to investors for well-defined levels of risk via a series of funds.
